Subject: MLPAComments: Marine Protected Areas

To whom it may concern,

I give my full support to Package 2, please choose this package as it gives best protection for proposed areas. I am an avid SCUBA diver, Monterey Bay Aquarium volunteer diver, CSUMB Earth Systems Science and Policy student, and above all an environmentalist. Please take my opinion into consideration and choose Package 2. We have all been given the chance to change what has been done and help our impoverished oceans. Please, do not let this chance pass you by. Do the right thing and choose package 2.
